

Handbrake mechanism information and prices:-

Disc 'Grabber' Pad Mechanism Kit (Pat.Pend)

Cable operated SVA & MOT compliant handbrake assembly to fit many standard floating piston calipers currently being sold. Current availability as seen in section 1 below.

- Retro fit existing multi piston calipers (i.e. Hi Spec, Willwood, Brembo etc)
- External to the hydraulics
- Cable operated
- SVA & MOT compliant
- Self adjusting for pad wear
- A lighter weight option
- No extra axle or hub fixings required
- Simple pad changes

Note: All handbrake assembly parts available (levers, cables etc) separately.
